

Interpreting Images (8OVC1)

Task: Analyse and compare two pictures by answering questions. Be prepared to share your answers with the class.

Step 1: Run *Smart Ideas*.

Step 2: Open the file as directed by your teacher.

Step 3: Look at the images on the screen. Use the questions to help you understand and compare them.

Step 4: Enter your observations into the web.

Step 5: Add new symbols and connectors as necessary.

Step 6: Save and print your work.

Step 7: Prepare to share your work with the class.
