

Constructing a Quiz Game (6R4)

Task: Prepare a set of cards with which to play a quiz game similar to Trivial Pursuit or Jeopardy.

Step 1: Run Appleworks and open the template file. Your teacher will tell you where to locate the file. Save the file using a filename as directed by your teacher.

Step 2: Record each of your question - answer pairs in one of the charts.

Step 3: Double click to the right of the word Question.

Step 4: Tap the enter/return key.

Step 5: Type your first question.

Step 6: Double click to the right of the word Answer.

Step 7: Tap the enter/return key.

Step 8: Type the answer to your first question.

Step 9: Complete all cards on the page. If you need more cards, open the template file and save it under a different name.

Step 10: Print out your cards.

Step 11: Fold the cards on the dotted line with the text on the outside.

Step 12: Glue the blank sides together to make a card.
